Kyosan obtained ISO 14001 Certification in 1999, and ISO/TS 16949 Certification in 2005.

ISO 14001 ISO/TS 16949

KYOSAN PRODUCTS

FUEL PUMPS (MECHANICAL / IN-TANK)

Pumping and transferring fuel with exact pressure from fuel tank to carburetor. **MECHANICAL FUEL PUMPS (Photo 1)** and **IN-TANK FUEL PUMPS (Photo 2)** are available.

SAFE DRIVING with **KYOSAN FUEL PUMPS**, whose quality has ever been pursued.

DIESEL FUEL FILTERS

Filtering impurities and water from diesel fuel. **DIESEL FUEL FILTERS (Photo 3)** require high-filtering ability because diesel fuel lubricates injection pumps & nozzles. **KYOSAN's HIGH EFFICIENT FILTERING** can prevent fuel defects in injection devices due to impurities.

FUEL FILTERS (HIGH/LOW PRESSURE)

Filtering impurities from gasoline. **HIGH PRESSURE TYPE (Photo 4)**; for fuel injection engines
LOW PRESSURE TYPE (No photo); for carburetors
KYOSAN's ELIMINATING STATIC DESIGN can prevent fire due to electric-charging.

Combine the best properties of **HIGH EFFICIENT FILTERING** and **LONG LIFE - KYOSAN FILTERS**.
